

TOUCHLESS ELEVATOR ACCESS TECHNOLOGY
LIFTOFF MOBILE ELEVATOR SOLUTION
STEWARD SECURITY SOFTWARE PLATFORM

A mobile solution for modern elevator systems addressing modern challenges.

TOUCHLESS DISPATCH

Call an elevator car for dispatch to a destination from your iPhone or Android, without touching any elevator kiosk component. Receive an elevator assignment on your phone once the call is made.

SECURE

As a Property or Building Manager, continue to only grant elevator floor access to those tenants/residents who have access to their floor(s).

EASY to USE

Smart and Intuitive. Define schedules for automatic car calling when within proximity of the elevators. "Shake" the phone to call a ride to a default floor.

KEYLESS UNLOCK

Unlock secured floors at kiosks without ever removing the phone from your pocket. No card or fob needed.

MONITOR

Report on LiftOff activity in the building. Track who called the elevator to what floor during a given period of time. Receive alerts and set thresholds.
